

What Are You Proving?

Proof statement:

"I help parents who don't know where to start investing for their child's future understand mutual funds in plain, jargon-free language — through a free children's financial literacy guide that ends with them booking a consultation call with me."

Why it needs to exist:

"A CV or LinkedIn can say 'Mutual Fund Distributor' — it can't show a confused parent that I can explain their child's financial future in language they'll actually trust enough to act on."
